

Meet Riga

LATVIAN LUXURY

Riga Plywood is a dynamic product range that is focused on combining unique architectural patterns with the reliability of a Birch Plywood core. Riga Plywood is arguably the most unique product range we offer, and it's guaranteed to turn heads; even from those we come into the store looking for a completely different type of board

At its heart, Riga is Plyco's **Premium Birch Plywood**. We then combine this premium core with 6 different types of faces, each with a different architectural texture, pattern or finish. The standard size sheets for our Riga Plywood are 2440 x 1220mm and 18mm thick.

Riga is most commonly used in building and construction industries, while also being utilised heavily for joinery. It's not uncommon to also see it used for transport packaging, furniture, sports equipment and even kid's toys.

For an overview of our carefully curated range of Riga products, read more about our collection below.

Technical Specifications

Inside Out

All of our Riga Plywood options utilise an A-bond glue, which means sheets are suitable for both interior use and exterior use.

Formaldehyde Free

All adhesives used in the manufacturing process of our Riga Plywood range are formaldehyde free, making it safe for use in classrooms, design studios and anywhere else you might find yourself working.

Visual Variety

There are six different architectural options in our Riga Plywood range, each of which offers something completely new. From our Aluminum-faced option to the black glass fibre overlay of Riga Deck, there's something to fit every application.

Birch Brilliance

At the heart of every Riga sheet is a Premium Birch Plywood core. Being built upon the reliability of Birch means you can trust that your sheet is built to last.

Riga Plywood Product Range THE SENSATIONAL SIX

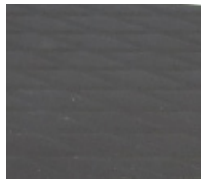

Riga Aluminium

A vibrant and shiny aluminium finish.

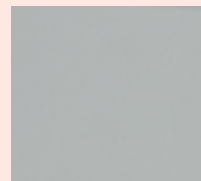

Riga Deck

A black glass fibre overlay featuring a diamond-shaped pattern, perfect for surfaces requiring impact resistance.

Riga Dot

A special film with a unique wear pattern that creates a dot aesthetic and gives this product its name.

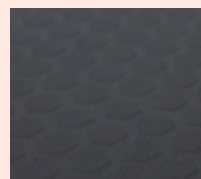

Riga Hexa Grey

A UV resistant film with a hexagonal grey pattern.

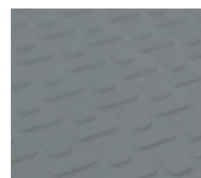

Riga Hexa Plus

A dark film with a raised pattern surface on the front and a smooth back.

Riga Capsule

A more flexible product that is wear resistant, doesn't crack and is very resistant to chemicals and UV.

Product Benefits

Knowledge Base

Combined with expert advice, we offer Riga customers a growing online platform for sharing information on applications and project inspiration.

Custom Quantities

Both a manufacturer and supplier, Plyco offers department leaders the flexibility to purchase either single, loose sheets or large packed quantities.

National Shipping

Whether you're in Scarborough or Sydney, Plyco's full range of Riga products are available for courier shipping Australia wide.

FSC Certified

All products are either from FSC Certified sources or are sourced from sustainably managed forests, as recognised by the international Forest Stewardship Council.
