

Spotless Laminate

THE SOPHISTICATED NEWCOMER

Spotless Laminate is an exciting new Laminate range that boasts a super matte finish and anti-fingerprint technology to provide an anti-bacterial, heat resistant laminate used for anything from kitchen bench tops and counters to cabinetry and seating.

Thanks to its stunning finish, Spotless Laminate can be used for a wide range of architectural purposes and in almost any situation where a high quality and visually pleasant finish is required. A perfect option for industries as diverse as cabinetry and furniture building, the physical qualities of the laminate mean it is ideal for projects where there will be a considerable amount of human contact with the surface.

Technical Specifications

Available Sizes

Spotless Laminate is available as a standard size in 2400 x 1200mm sheets, with a laminate thickness of 0.8 - 1mm.

Diverse Substrates

Unlike our Decoply and Strataply range, Spotless Laminate is made to order on a huge range of substrates, including our Premium Birch Plywood, Particle Board and MDF.

Made To Order

Spotless Laminate is currently a Made To Order product that is available to be pressed onto any substrate in any thickness.

Custom Laminates

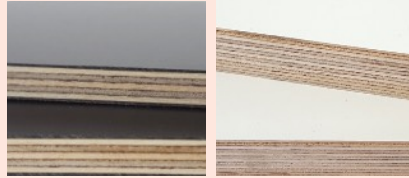

If you're seeking a laminate beyond our extensive in-store selection, we also have the capacity to use any commercially available laminate upon request.

Spotless Laminate Product Range

THE SOPHISTICATED SIX

Matte Monochrome

A modern black and white matte finish.

Matte Pastel

A growing collection of matte colours, currently available in Hazelnut, Magma, Pewter, Porcelain.

Spotless Manufacturing Process

SOURCED

Plyco searches locally and internationally for the freshest substrate cores for construction of a Spotless Laminate order.

PRESSED

On arrival to our Melbourne manufacturing facility, formaldehyde-free adhesives are used to hot-press the matte laminate and plywood core.

PERFECTED

Fresh off the press, Spotless Laminate is then perfected using the latest modern European technology.

DISPATCHED

After some finishing touches, your Spotless Laminate order is then made ready for immediate dispatch Australia wide.

Product Benefits

Fingerprint Free

An inviting matte finish and anti-fingerprint technology means that absolutely no trace of human touch can be found on the product, no matter how often it's touched.

Heat & Impact Resistant

Spotless Laminate is designed to resist dry heat and impacts, making it perfect for applications that will be exposed to high temperatures and regular usage.

Australian Made

With our Spotless Laminate range manufactured using the latest techniques and machinery in our Melbourne production facility, in buying from Plyco you're supporting Australian jobs.

Anti-Bacterial

Anti-bacterial properties and resistance to household cleaning solutions, creates a low maintenance product that prevents the growth of bacteria or mould.
