

Wall Panelling

PANELS FIT FOR WALL STREET

Wall Panelling is a diverse product range available at Plyco. Grouped by application, this collection of timber panels meets the needs of any builder, DIYer or caravan enthusiast. These panels also ship anywhere Australia wide!

Plyco's Wall Panelling is available in four categories: **Exterior Cladding**, **Interior Cladding**, **Decorative Wall Panels** and **RV Wall Panelling**. Each category offers a variety of flavours, designs and sizes that are guaranteed to have you excited.

Available in a variety of thicknesses from 3mm – 12mm depending on the product, this collection boasts a world of potential applications. As the name suggests, this collection was built with wall panels in mind, however all products are perfectly suited for interior ceiling lining applications too!

For an overview of our carefully selected collection of wall panels, read more about our specific products below.

Technical Specifications

Custom Sizes

In addition to all standard product sizing, Plyco offers a Cut To Size service. From standard cuts to CNC programs, you'll find any custom sheet size tailored for the purpose of your project.

Formaldehyde Free

All adhesives used in the manufacturing process of wall panel range are formaldehyde free, making it safe for use in classrooms, design studios and anywhere else you might find yourself working.

Visual Variety

With enormous variation in grooves, textures and finishes, each of the products in this collection offer something completely different. If you feel stuck for choices, contact our team!

Weather Warriors

With an A-Bond exterior glue used in every sheet of our Exterior Cladding, you'll never have to worry about whether your sheets will hold up in external applications.

Wall Panelling Product Range

THE FANTASTIC FOUR

Product Benefits

Exterior Cladding

Shadowclad / Weather Groove

Shadowclad is our famous exterior structural plywood product which can be used for both decorative and bracing.

Simple to install, easy to maintain and environmentally friendly, Weather Groove is a 100% Australian interior/exterior wall cladding product.

Interior Cladding

Weather Groove / Radiata VJ100

Sustainably grown on Radiata Pine plantations, both Weather Groove and VJ100 add natural warmth to any interior.

While tailored for interior wall linings, this pair is equally at home as ceiling linings, feature walls, commercial interiors and shop fit outs.

Decorative Panels

Designer Groove / Surround by Laminex

All-purpose interior panels made with Ultra Moisture Resistant MDF. Formaldehyde free and primed for painting, these wall panels are suitable for a wide range of wet & dry interior applications.

Available in a huge range of designs, these beautiful products will inject a timeless flair into any interior.

RV Wall Panels

Alkorcell / Laminated Poplar

A scratch-resistant, soundproof and waterproof panel featuring a polypropylene-based film for surface design applications.

Knowledge Base

Combined with expert advice, we offer all Plyco customers a growing online platform for sharing information on applications and project inspiration.

Custom Quantities

Both a manufacturer and supplier, Plyco offers department leaders the flexibility to purchase either single, loose sheets or large packed quantities.

National Shipping

Whether you're in Scarborough or Sydney, Plyco's full range of products in our wall panel collection are available for shipping Australia wide.

FSC Certified

All products are FSC Certified or are sourced from sustainably managed forests, as recognised by the international Forest Stewardship Council.
